To: Praveen Soni, Chair
Academic Senate

From: Dixie A. Grimmett, Acting Dean 
College of Health and Human Services

Subject: Health Care Administration

The proposal to change the Health Care Administration Program into a Department has been unanimously approved by all committees in the College of Health and Human Services. As Acting Dean, I support the change from a program to department. They have been treated like a department, in all respects, for many years but they lacked the 6 tenure track faculty members required by Academic Senate policy to be a department. I am happy to report that they were authorized for another position, which brings them into compliance. The attached document written by the program is compelling and will not require additional resources as we move through budget cuts.

Subject: Health Care Administration

The proposal to change the Health Care Administration Program into a Department has been unanimously approved by all committees in the College of Health and Human Services. As Dean, I also support the change from a program to department. They have been treated like a department, in all respects, for many years but they lacked the 6 tenure track faculty required by Senate policy to be a department. I am happy to report that they were given the authorization for another position, which brings them into compliance. The attached document written by the program is compelling and will not require additional resources as we move through budget cuts.

COLLEGE OF HEALTH AND HUMAN SERVICES

Date: April 20, 2009

To: Tony Sinay
Professor and Program Director
Health Care Administration Program

From: 
Richard V. Tuveson
Chair, Faculty Council
College of Health and Human Services

Subject: Approval of Proposal to Establish Department Status for
the Health Care Administration Program

The College of Health and Human Services Faculty Council has reviewed and unanimously approved the Health Care Administration program's proposal for department status. The Council's belief is that Health Care Administration is already functioning as a department in all essential aspects and that application for department status is appropriate at this time.
